Beretta Booth

@ IWA OutdoorClassics 2015

Press Release

Beretta chooses Nuremberg's IWA OutdoorClassics trade show to introduce the BLACK EDITION competition O/U series: the most renowned Beretta competition over and unders will be available in a black and more technical edition, conceived to further improve the performance of the three Beretta over-and-under clay-shooting competition shotguns.

The BLACK EDITION series features the new DT11 BLACK 12ga, the 692 BLACK 12ga and the 690 BLACK 12ga in Sporting and Trap versions. These over-and-under shotgun models are characterized by a sophisticated black-look and – for 692 and DT11 – by new hyper-technical carbon-fiber components (top rib for both models, and also trigger-guard for the DT11) improving weight, balance, ergonomics and ballistics.

The BLACK EDITION series will be available by the end of 2015, starting with the 690 Sporting & Trap BLACK in late Q2/2015.
